

Community High School District 117 Facility Committee

Members

Jennifer Nolde	Assistant Superintendent
James McKay	Superintendent
Wayne Sobczak	Board of Education President
Sandy Jacobs	Board Member
Bart Winkler	Board Member

The Facility Committee is charged with the evaluation of facilities, grounds and property while considering current and future needs required by the academic program, the extra-curricular program and district goals. The Committee will make recommendations to the Board of Education as necessary.

The Facility Committee considers long term infrastructure needs, security needs, life safety needs, technological needs and land management. The committee utilizes architects and engineers when and where appropriate.

The Facility Committee typically meets 3-4 times per fiscal year to discuss the implementation of the five year facility/grounds plan. The plan is developed based on the repair/maintenance needs of facilities and grounds and the fiscal position of the District. The plan is subject to change based on current conditions.
